

# Mobile Application Installation Guide

## mobiXtension version 2.0

- Step 1: In your web browser go to -> <http://www.mobixt.co.za>
- Step 2: Register & Login as a mobiXtension User.
- Step 3: Select the [**DOWNLOAD**] option.
- Step 4: Download the [**mobiXtension v2 Application**] file. (Latest version of the application)
- Step 5: On your Android device go to -> [**Settings**][**General**][**Security**] and set [**Unknown Sources**] to checked.  
(This will allow the application to be installed)
- Step 6: Install the Application [**mobiXtension\_v2.apk**]
- Step 7: On your Android device go to -> [**Settings**][**Applications**][**Application Manager**] and select [**mobiXT v2**].  
Set all [**Permissions**] to On.
- Step 8: Execute [**mobiXtension**] on your Android device and follow the Device Application Setup steps on the next page.

Download the [**mobiXtension v2 Mobile App User Guide**] file for full Application layout Instructions. (User Guide in PDF format)

Download the [**mobiXtension Web Interface User Guide**] file for full Web interface instructions. (User Guide in PDF format)

\*

**Please note that the Application currently only runs on ANDROID devices.**

# Application Setup Page

**Step 1:**  
**CREATE MAIN ENVIRONMENT**  
(Create the database environment on the device)  
  
All previously stored records on the Device will be Deleted.

**Step 2:**  
Restart the Application for the Database changes to take effect.

**Step 3:**  
Sync & Install all eForm Templates, Lookup and Search Data from the Online Server.  
  
Button can be pressed weekly to verify that the latest updates are installed.
